

## *Empowered Church Modules*

The Empowered Church program consists of five key modules, each designed to help your church in the establishment of an effective evangelism cycle while strengthening the overall health of your church.

The Empowered Church modules are:

### **Program Set-up Module**

The purpose of this one-time module is to acquaint the church with the Empowered Church program and to lead the church board through the creation and establishment of the Outreach Leadership Team. Once this module has been completed, it will not be repeated.

### **Assessment Module**

This module helps the church in evaluating its strengths and weaknesses. It assesses the church's *evangelism readiness*, *visitor receptiveness*, and *ministry effectiveness*. The Assessment Module also contains ideas and strategies for strengthening the church's weak areas while maximizing its strengths.

### **Revival Module**

The Revival Module focuses on the essential aspects of revival, such as devotional life. The module contains sermon outlines, weekly church-wide handouts, prayer meeting ideas, bulletin inserts, inspirational devotionals, and more. The revival focuses church attention on vital aspects of spiritual growth, with the goal being to lift the spirituality of the individual member and thus the spirituality of the entire church. It emphasizes the importance of prayer and Bible study in the church and private lives of members.

### **Evangelism Module**

This module provides training and opportunities for church members to get involved in sharing their faith in preparation for the evangelistic series. The module provides training in the areas of Bible study, reclaiming inactive members, and community outreach. It also contains valuable resources to help the church conduct bridging events in the community, which will build interests for the evangelistic series and increase membership involvement in outreach. It also provides a wealth of information on how to hold an effective evangelistic series.

### **Discipleship Module**

This module provides practical ways to follow-up on the interests generated from the evangelistic meetings and additional tools for helping all believers share their faith effectively. It also contains the necessary resources for the establishment of effective discipleship groups and training on how to establish new believers in Christ. The *Spiritual Mentors* program is also part of this module which helps church members build meaningful relationships with the new believers while connecting them to the church.
